Apollo lounge bed

Orlando mesa 220/280/340x100cm. **Lisbon** sillón

Visby sillón y mesa 225x100 cm.

Visby sillón y mesa ø150cm.

Visby sofá y mesa 113x63cm.

Viena sofá y mesa 84x84cm.

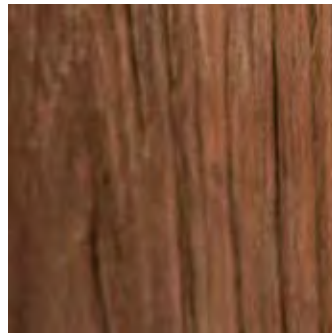

Viena sofá y mesa 84x84cm.

ALUMINIO

Las estructuras de aluminio ofrecen un óptimo comportamiento en el exterior, por su resistencia, ligereza y antioxidación. El acabado superficial a base de pigmentación y pintura al horno texturizada, protegen de la decoloración ante los rayos ultravioletas.

La limpieza es el único mantenimiento que requiere el aluminio.

MADERA DE TECA

Esta madera es por excelencia la más codiciada en el exterior, por su aspecto, dureza y comportamiento, sin apenas alteraciones estéticas si practicamos una debida limpieza y mantenimiento, a base de aceites y productos apropiados.

WICKER

Es una resina ideal para uso exterior, trenzada a mano, que consigue unos acabados realmente muy cercanos a los productos más naturales como el mimbre.

Una cuidadosa limpieza y protección ante posibles cambios extremos de temperatura, son recomendables para su buen mantenimiento.

SLING

Es un tejido de PVC de trenzado industrial, sometido a unos estiramientos previos para mantener la tensión una vez aplicado al mueble, transpirable, permeable pero resistente al agua, y resistente a los rayos UVA.

Una simple limpieza como protección es suficiente.

CRISTAL

Las encimeras son de cristal templado al horno para ofrecer una gran resistencia a la rotura.

Disponemos de acabado brillante (shinning) y acabado mate (foggy)

El mantenimiento del cristal se limita a una limpieza superficial.
